

How to download your music from IMSLP.com

1. Go to the music link available on the website.
2. A page on the IMSLP.info site will open.
3. Scroll to SHEET MUSIC
4. Click on the Parts tab
5. Click on → More where the names of the applicable instruments are listed. (The number may vary, but there will be an arrow and it will say "More")
6. Scroll to your Instrument.
7. Click on your instrument.
8. The screen you will next see, appears to be a paywall.
9. Near the top of the page, you will see a countdown: "Your download will appear in 15, 14, 13, 12, 11, seconds."
10. Wait for the countdown to get to zero.
11. Then a link will appear that reads, "Click here to continue your download."
12. Click on that link.
13. The music for all parts for that instrument will appear in one file. For example, Flutes 1, 2, 3 are in one 28 page file.
14. Do NOT hit print, yet.
15. Find the pages that include the part you want to play and print those pages.
16. For example, if I want to print Flute 1, I will print pages 1 through 11. The number of the page you want to print are in the upper left corner of the screen – do not use the page numbers printed on the music. If I want to play Flute 2, I will print pages 12 through 21. The Flute 3 part is found on pages 22 through 28.
17. Print the part that you want to play. It is up to you.

Good Luck. See you soon.
